

ShoreTel Connect Contact Center Product Plans

SIMPLE PRODUCT PLANS FOR EXCEPTIONAL CUSTOMER EXPERIENCES

ShoreTel Connect Contact Center ONSITE Product Plans plans offer flexibility to choose the right customer engagement experience that best fits your requirements

ShoreTel Connect Contact Center is a fully featured customer engagement suite that helps you amplify customer experiences. It enables previously standalone contact center functions, including ACD, IVR, computer telephony integration (CTI), outbound campaigns, and multimedia routing, to be integrated onto a single, centrally managed, highly available platform.

ShoreTel Connect Contact Center is based on the ShoreTel Connect platform. What this means is that you get an industry-leading Unified Communications solution, as well as the powerful Contact Center solution from a single platform, thus providing a cohesive end-to-end solution that reduces cost and complexity.

Connect Contact Center works for businesses of all sizes, distributed locations and varying budgets. Because it's added to the Connect ONSITE foundation, it's easy to enable unified communications features like instant messaging, conferencing and online meetings. Connect Contact Center is an enterprise-grade solution from ShoreTel, a pioneer in VoIP with nearly 20 years of unified communications leadership. It is backed by ShoreTel's services and support teams that are focused on delivering the best to you.
